Game Programmer / Backend Developer

ABOUT ME

Experienced Game Programmer with expertise in Unity 3D, Roblox and Luau, API integration, and backend development. I enjoy writing efficient, well-organized code and am always eager to take on new challenges.

EXPERIENCE

AULEEK – DHAKA, BANGLADESH.
GAME DEVELOPER
JANUARY 2026 - PRESENT

- Build gameplay and backend systems for shipped multiplayer Roblox titles in Luau.
- Own systems end to end on live titles: core mechanics, objectives, lobby flow, progression, monetization and live events.
- On Robbery Simulator, designed the NPC and police AI, the Heat escalation system and a custom navigation stack replacing the engine's pathfinding.

FREELANCE
GAME PROGRAMMER
DECEMBER 2021 - DECEMBER 2025

- Hardworking freelancer with over 15 successfully completed projects and consistently positive client feedback.
- Experienced in working both independently and collaboratively as part of a team.

GAMESOC STUDIOS – CYPRUS.
UNITY GAME DEVELOPER (REMOTE)
JUNE 2023 – MARCH 2024

- Built vendor-support solutions distributing earned virtual currency to thousands of users across multiple games.
- Contributed to increased user engagement and growth for multiple games.

EDUCATION

BSC / MULTIMEDIA UNIVERSITY (2016-2021)

Bachelor of Computer Science, Game Development.

HSC / DIGHAPATIA M.K COLLEGE, NATORE (2009-2011)

Higher School Certificate program.
